

## Fractions

- Identify and write different types of fractions.
- Compare and order fractional amounts with unlike denominators.
- Solve simple word problems related to fractions.

2 out of 7 flowers are tall.

$\frac{2}{7}$  of my flowers are tall.

Write a fraction for the shaded parts of each figure or group of diagrams.

mixed number

Colour the parts to match the fractions. Then put "<" or ">" in the spaces provided.

$\frac{4}{5}$    $\frac{2}{3}$

$\frac{2}{6}$    $\frac{3}{8}$

$\frac{9}{12}$    $\frac{7}{10}$

$\frac{3}{5}$    $\frac{5}{7}$

Compare each pair of fractions. Draw and colour simple diagrams of your own to show the fractions. Then circle the greater one.
